

Treasure Group for General Contracting and General Supplies

1 **Treasure General Contracting and Supplies:**

Treasure General Contracting and Supplies:

Expertise Lighting the Path to Success

Treasure Group stands out with a highly qualified and experienced team that leverages the latest technologies to deliver services exceeding client expectations. The company is dedicated to achieving customer satisfaction by providing innovative solutions tailored to meet project needs in the best possible way.

Whether the projects are small or large, Treasure Group guarantees their completion with efficiency and professionalism, making it the ideal partner for executing all electrical projects with the highest quality and on time.

About Our Company:

Treasure Group is a leading and specialized company in the field of electrical contracting, with extensive experience in executing diverse projects, including electrical panels, transformers, cable networks, and site lighting systems. The company is committed to delivering comprehensive electrical solutions characterized by quality and efficiency, while adhering to the highest standards of safety and performance.

2 Treasure General Contracting and Supplies:

Treasure General Contracting and Supplies was founded on a solid foundation of commitment to quality and innovation in the fields of electrical and mechanical contracting. From its inception, the company has focused on delivering advanced engineering solutions that meet the evolving needs of the market.

Our journey began as a small company specializing in electrical projects, and we quickly expanded thanks to our dedication to providing world-class services. Over time, we have built a strong reputation as a trusted partner for both large and small projects, with a consistent focus on delivering solutions that meet the highest standards of quality and safety.

Today, Treasure General Contracting and Supplies takes pride in being one of the leading companies in its field, with a proven track record of achievements and a wide range of clients who trust our services. We are committed to continuing to build a future filled with creativity and excellence while upholding the core values that have shaped us into the company we are today.

3 Treasure General Contracting and Supplies:

Our Vision:

At Treasure General Contracting and Supplies, we aspire to be market leaders in the field of electrical and mechanical contracting and their associated services by delivering comprehensive solutions characterized by high quality and efficiency. We believe that excellence and leadership are achieved through the commitment of top management, teamwork, innovation, and integrity our company's core values.

Our vision serves as the framework and approach that guides every aspect of our business, directing us toward achieving our strategic goals and meeting our clients' needs with efficiency and professionalism. We continuously strive to enhance our performance and improve our services to deliver innovative and sustainable solutions that contribute to long-term growth and success for our clients and partners alike.

Small quote about the company

Treasure embodies a spirit of innovation and unwavering dedication, positioning itself as a trusted partner delivering engineering solutions that redefine excellence in quality and safety standards.

“

At Treasure General Contracting and Supplies, customer satisfaction is our top priority. We are dedicated to earning our clients' trust and exceeding their expectations by providing services that go above and beyond.

Our vision is not just words; it is a daily commitment that drives us to build a bright and sustainable future in the fields of electrical and mechanical contracting.

With our extensive expertise and professional team, Treasure General Contracting and Supplies guarantees the delivery of services that align with our clients' needs and expectations, ensuring the highest levels of performance and reliability.

Our Services Include:

01. Installation and Maintenance of Primary and Secondary Electrical Distributors:

We specialize in the installation of primary and secondary electrical distributors, which are vital components of the electrical infrastructure. Additionally, we offer regular and emergency maintenance services to ensure continuous and efficient performance.

02. Design and Implementation of Electrical Transformer Systems:

We design and implement electrical transformer systems tailored to the specific needs of each project. This includes detailed project requirement analysis and the development of plans aligned with global technical and engineering standards.

03. High-Precision Underground and Overhead Cable Installation:

We handle the installation of underground and overhead electrical cables using the latest technologies to ensure precision and quality execution.

04. Cable Testing and Inspection to Ensure Efficiency and Performance:

Comprehensive testing and meticulous inspections of electrical cables are conducted to verify their efficiency and optimal performance, enhancing the quality of electrical distribution.

5 Treasure General Contracting and Supplies:

05. Safe and Sustainable Energy Distribution Solutions:

We are committed to providing innovative, safe, and environmentally sustainable solutions that effectively meet energy distribution needs.

06. Design and Implementation of Outdoor Lighting Systems for Residential, Industrial, and Commercial Projects:

We design and implement integrated outdoor lighting systems to meet the needs of various project types, focusing on balancing aesthetics and functionality.

07. Installation of Energy-Efficient Lighting Systems, Including LED Solutions for Streets and Public Areas:

We offer lighting solutions utilizing advanced energy-efficient technologies, such as LED systems, reducing energy consumption while delivering long-term efficiency.

08. Custom Lighting Solutions for Large-Scale Projects Such as Parks, Roads, and Construction Sites:

We provide tailored and comprehensive lighting solutions designed to meet the requirements of large-scale projects, ensuring optimal performance across diverse working environments.

6 Treasure General Contracting and Supplies:

Our Core Values and Guiding Principles:

At Treasure General Contracting and Supplies, our work is built upon a set of core values that define our identity and guide our journey toward leadership in the electrical and mechanical contracting industry. These values are not just words but steadfast principles that we uphold in every aspect of our operations.

Treasure General Contracting and Supplies:

Our Commitments:

- .1 Quality:**
We are dedicated to delivering the highest standards of quality in everything we do. We believe that excellence is the key to customer satisfaction and building trust.
- .2 Safety:**
Safety is not just a priority; it is a culture we live by every day. We ensure a safe environment for our team, clients, and the communities we serve.
- .3 Integrity:**
We believe that integrity is the foundation of every successful relationship. We are committed to transparency and honesty in all our dealings with clients and partners.
- .4 Innovation:**
Innovation sets us apart. We constantly seek new and creative ways to deliver engineering solutions that meet the evolving needs of the market.
- .5 Sustainability:**
We are dedicated to delivering the highest standards of quality in everything we do. We believe that excellence is the key to customer satisfaction and building trust.
- .6 Quality:**
We are dedicated to delivering the highest standards of quality in everything we do. We believe that excellence is the key to customer satisfaction and building trust.

What Sets Treasure General Contracting and Supplies Apart?

Commitment to Quality:

Quality is at the forefront of our priorities. We adhere to the highest global standards in all our projects to ensure results that exceed our clients' expectations.

Specialized Expertise:

Our team of seasoned experts in electrical and mechanical contracting brings extensive experience, enabling us to deliver precise and innovative solutions tailored to each project's needs.

Advanced Technologies:

We leverage the latest technologies in project design and execution, ensuring cutting-edge solutions that adapt to market changes and deliver long-term efficiency.

Commitment to Safety:

We believe safety is the foundation of sustainable success. We are dedicated to providing a safe environment for everyone involved in our projects and for those benefiting from our services.

Customized Solutions:

Understanding that every project has unique requirements, we offer tailored solutions designed to meet our clients' specific needs with precision and professionalism.

Continuous Innovation:

Innovation is an integral part of our culture. We constantly explore new ways to enhance our processes and deliver better, more efficient services.

Effective Communication:

We believe that effective communication with our clients and partners is key to success. Transparency and ongoing collaboration are central to every stage of our projects.

Sustainability:

Our focus is on providing sustainable engineering solutions that respect the environment and create a lasting positive impact.

Commitment to Deadlines:

We recognize the importance of time in our clients' projects, ensuring that all projects are delivered on schedule without compromising quality.

9 Treasure General Contracting and Supplies:

Team Spirit:

We operate as a cohesive team with shared goals, enhancing performance and delivering professional services characterized by excellence and reliability.

The Team at Treasure Group

At Treasure Group, we believe that our success starts with our team. They are the backbone of the company and the driving force behind every achievement. Our team is diverse and experienced, combining engineers, technicians, and specialists who work together with a unified vision to achieve our shared goals.

Expertise and Efficiency

Our team consists of highly skilled professionals with extensive experience in electrical and mechanical contracting. Each member is dedicated to delivering the highest levels of quality and precision while staying up-to-date with the latest global technologies and methodologies.

Commitment and Professionalism

Our team members are more than just employees; they are partners in our success. They work with dedication and commitment to ensure that every project is executed to the highest standards of quality and safety.

Spirit of Innovation

Our team thrives on innovation and creativity, consistently striving to deliver new and effective solutions that meet client needs sustainably and efficiently.

Training and Development

We invest in our team's growth through continuous training programs, ensuring they stay informed about the latest advancements in the field. This not only enhances their performance but also improves overall efficiency.

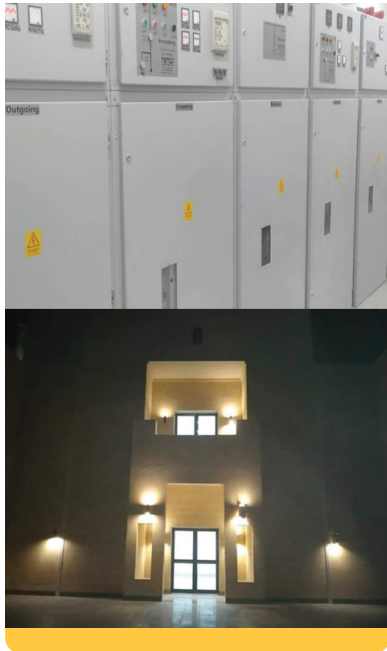

Communication and Trust

We foster a work environment built on transparency and open communication, encouraging a sense of responsibility and belonging within the team.

Passion for the Profession

Every member of our team works with passion to fulfill the company's vision, believing that each project is an opportunity to make a positive impact on our clients and the community.

Our Key Achievements

Successfully installed modern electrical distribution and transformer systems for major projects in areas like New Ismailia, King Salman University, Suez, The Ville, and Ain Sokhna, showcasing our ability to execute large and complex projects with high efficiency.

Implemented underground electrical cable networks for residential and industrial complexes, adhering to the highest standards of quality and safety to ensure reliable and sustainable performance.

Designed comprehensive lighting solutions for major public spaces, including parks, streets, and construction sites, providing effective and sustainable illumination tailored to diverse project needs.

These achievements highlight our professional expertise and ability to deliver diverse projects with exceptional craftsmanship. This description can be further customized by adding details about your prominent projects or key clients you've worked with.

**Medium and Low Voltage Networks and
General Site Lighting at
King Salman University, Sharm El Sheikh**

Duration

8 months

Client

Telecommunications and
Technology Company
Teletch

Contract Value

EGP 34,964,425

Project Overview:

- Construction of a main medium-voltage distribution building (22 kV).
- Installation of transformer rooms equipped with the latest equipment and backup generators.
- Installation of bollard poles and decorative lighting works using various lighting units.

Our Key Achievements

Construction of Suez Canal University Theater

Duration

6 months

Client

Telecommunications and
Technology Company
Teletec

Contract Value

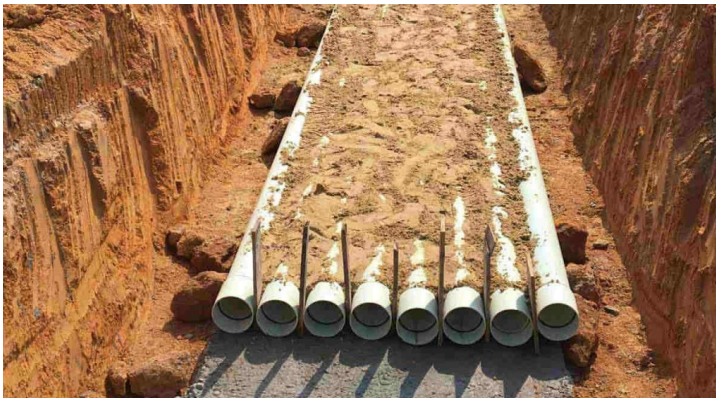

EGP 47,500,000

Project Overview:

- The Suez Canal University Theater construction project aims to provide an exceptional environment for hosting cultural, artistic, and educational events. The project includes the execution of comprehensive architectural works featuring modern engineering designs that ensure audience comfort and high-quality sound and lighting.
- Additionally, the project involves the implementation of electromechanical works, such as installing advanced sound and lighting systems, as well as air conditioning and ventilation systems to ensure an ideal atmosphere for various performances and events.
- The project places a strong emphasis on sustainability in both design and installation, creating a venue that reflects the educational and cultural identity of Suez Canal University.

Our Key Achievements

Medium and Low Voltage Networks in District 2 and 3 of New Ismailia

Duration

1 year

Client

TeleTec – Telecommunications
& Technology Company

Contract Value

EGP 154,998,620

Project Overview:

► The project involved general and subsidiary lighting works, including:

- 9-meter lighting poles with lighting units, feeding cables, and lighting panels.
- Decorative lighting poles with integrated lighting units.
- Decorative site lighting using Up Light - Polard units.

Our Key Achievements

Medium and Low Voltage Networks in District 4 of New Ismailia

Duration

6 months

Client

TeleTec – Telecommunications & Technology Company

Contract Value

EGP 52,420,869

Project Overview:

- Supply, installation, and testing of 47 kiosks with capacities ranging from 500 kVA to 1,000 kVA.
- Supply and installation of 12,000 meters of medium-voltage cables and 16,000 meters of low-voltage cables.
- Installation of 584 lighting poles and 700 decorative lighting units.

Our Key Achievements

L-EXT Project in New Ismailia

Duration

6 months

Client

Engineering Authority of
the Armed Forces – Major
Projects Administration

Contract Value

EGP 12,369,640

Project Overview:

- ▶ The project included general and subsidiary lighting works, consisting of:
 - 9-meter lighting poles with lighting units, feeding cables, and lighting panels.
 - Decorative lighting poles with integrated lighting units.
 - Decorative site lighting using Up Light - Polard units.

Our Key Achievements

Implementation and Upgrading of Medium Voltage Networks for the Hayah Karima Project in East Qantara

Duration

6 months

Client

Mega Construction
& Industry

Contract Value

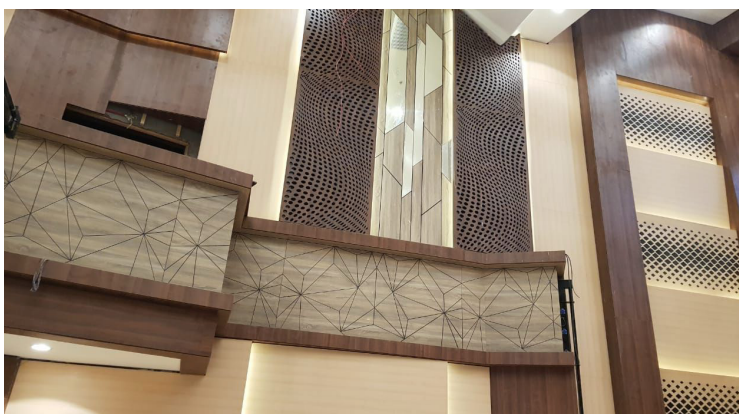

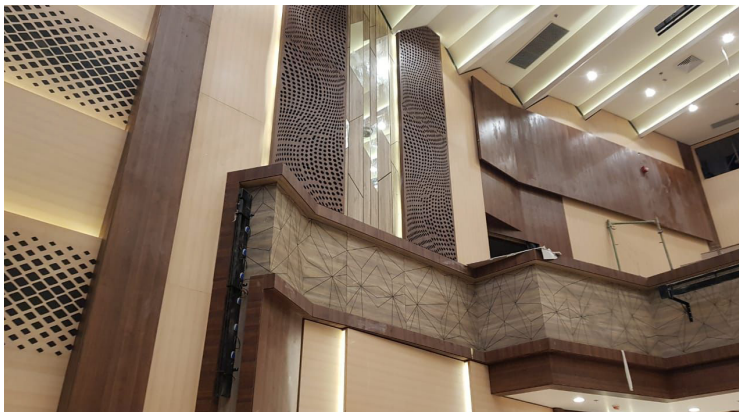

EGP 5,385,405

Project Overview:

- Rehabilitation of medium and low-voltage networks, including replacement of distributors, transformers, and ring main units.
- Public road lighting using modern lighting poles and high-quality lighting units.

Our Key Achievements

Wooden Cladding Works at Benha National University in El Obour City and Suez Canal National University in Ismailia

Duration

3 months

Client

Armed Forces Engineering Authority - Military Engineers Department

Contract Value

EGP 8,335,600

Project Overview:

- Decorative wooden cladding for public entrances and hallways.

Our Key Achievements

Social Housing Project in Suez - Phase II

Duration

1 year

Client

Engineering Authority of the
Armed Forces – Major Projects
Administration

Contract Value

EGP 275,453,855

Project Overview:

Rehabilitation of medium and low-voltage networks, including replacement of distributors, transformers, and ring main units.

Public road lighting using modern lighting poles and high-quality lighting units.

Our Key
Achievements

The Vill Project – East of Police Academy

Duration

1 year

Client

Engineering Authority of the
Armed Forces – Major Projects
Administration

Contract Value

EGP 487,115,375

Project Overview:

- Implementation of medium and low-voltage networks.
- Installation of 767 kiosks and 96 electrical distribution pillars.
- Installation of 700 decorative poles and 4,000 bollard lighting units.

Our Key Achievements

Back Extension of Phase II in New Ismailia

Duration

6 months

Client

Engineering Authority
of the Armed Forces
Major Projects Administration

Contract Value

EGP 10,191,360

Project Overview:

► The project involved general and subsidiary lighting works, including:

- 9-meter lighting poles with lighting units, feeding cables, and lighting panels.
- Decorative lighting poles with integrated lighting units.
- Decorative site lighting using Up Light - Polard units.

LOCATION

The main branch: 507 H, Hadayek Al-Ahram - Giza

Kazan Mall, 6th of October City, in front of Mall of Arabia.
Building A3, Office 115.
